February 28, 1958

To the students of North Central:

We have just finished the last page of the ECHO! After months of taking pictures, selling the book, writing copies, and sticking pictures, we have attained the goal set for us by being chosen as members of the Echo Staff. With the last deadline met, our fears we had in the beginning seem trivial - it wasn't difficult at all. We have learned so much from our blunders as well as our triumphs. We are proud of the end product, and for many years we shall look back to those days and nights of labor with reminiscent smiles.

Our success - if we have succeeded - is not ours entirely. Co-operation on the part of every student has helped us form this yearbook. We are also grateful to the businessmen and other loyal supporters of North Central who were interested enough to place advertisements in the yearbook. Without their support, we would not have been able to publish it.

To the people who always seemed to be around when we needed advice, will never receive enough credit for what they have contributed, we want to say to all of you "Thanks!"

It has been a privilege for us to serve you by editing the 1958 yearbook. Now our job is finished and we are turning it over to you. We truly hope that you will cherish it for many years.

Very sincerely yours,

One quiet May evening in 1968, I was working in my flower garden when a fiery red, atomic-powered Cadillac con-ble driven by my old pal, Judy Hiestand, came to a screeching stop. Judy is now head x-ray technician at St. Kath-'s Hospital, founded by Marilyn Gettelfinger. Judy had come to remind me of our class reunion to be held in the ey Central Park located south of the school. Jack Bary is now Principal of N. C. He took the position following Mr. t's retirement.

udy's twin sister, Janet, teaches physical education in the new physical education building back of the gym. This et's recipe for remaining trim and attractive. Just as Judy was leaving, the telephone rang. I hurried to answer it ecognized the voice as that of Joyce Smith of the Smith & Smith Beauty Salon, noted for its egg shampoo, located miles east of Ramsey. It is owned and managed by her and Betty Smith. She had called to tell me that she had to set my hair that evening. As I drove toward the Smith & Smith Salon, I passed the Byrne Worm Farm owned and ted by Donald and Terry Byrne. They have to supply the Erb Carrier Pigeon Corporation with a good number of fat, little, loveable worms each year. Marvin uses his carrier pigeons to keep in touch with his dear friends, Herb-ickler and Marvin Howerton, stationed on Mars to talk the small, green Martians out of invading our world. Their ; saucers are a familiar sight to us "earth people" but President Emily, yes, I said Emily, says there is no danger vasion as the Martians know better than to try while he is President. Even Mrs. Askren is proud of his English now.

Upon arriving at the Beauty Salon, I saw Patsy Flock (now Mrs. Harry K.) with her twin girls leaving for their arm near New Salisbury. Patsy and Harry have made a fortune raising mink. Joyce and Betty welcomed me and vce got ready to fix my hair, Betty flipped on their T. V. set. Featured was a Paris Fashion Show. An announcer ust introduced an outstanding guest who was there for the show who we recognized as David Kuerzi, our ambassa-o Paris. David introduced the lady guest of honor for the night who was none other than our Madamoiselle Marlene Queen of the Fashion Designers of the World. Her fashions for the night consisted of one model and a small girl a dress-alike mother and daughter fashion show. The model was Veda Eddleman (now Mrs. Darrell Burnett) er small daughter, Theresa Ann. One of the commercials was "How to Look Lovelier in One Hour's Time by Throwbridge's Beauty Secret. " Robert stepped on the stage and said, "Ladies, would you like to have lovelier n one hour's time? If so, Scrub it. " As we watched the show, we thought of other classmates who were abroad. Royalty, now a famous opera singer, makes regular appearances in the Opera Houses in Rome. Carole Davis ars nightly in the Wooten Be-Bop Dance Hall in Spain. The dance hall is owned and managed by Jim Wooten, King of Bop Music. Another classmate, Paul Adkins now an Army General, is stationed in Japan. Paul had r watch out for those Geisha girls, they might get the better of him. Wilma Burnett is doing fine work among agans in Africa as a missionary.

I bade Joyce and Betty good-bye and had started for home when I noticed the car needed some gas so I drove to er's Garage and Body Shop owned by Mr. & Mrs. Eddie Fisher and Sons. A small curly haired daughter had recently come to live with the Fishers to add to their joy and happines. Continuing homeward, I thought of my friends, Jane Green and Janet Mosier, who now live in Florida with their husbands, Junior Davis and Willie Smith. Ralph Sims se to like Florida too and we can't blame him as he is assistant director of Marineland.

Nearing Depauw, I passed Devil's Hairpin Race track owned by Larry Wetzel. The top male drivers in any race held at the Devil's Hairpin are Lonnie Smith and Charlie Davis, the hot-rodders of Ramsey. Joyce Barnickle and Jan Smith take all honors in any Women's Day Race by scaring the other drivers half to death by their driving before the even starts. Joyce, you really should have improved your driving since the old school days. Connie Kuerzi, assista manager of the track, is kept busy counting the fortune they have made since the track opened in 1960. Could we tribute this success to Larry's stinginess?

Buck Thomas owns a large 500 acre farm near Ramsey, which is used by the FFA boys in school as a place for learning all about farming, judging, laboratory work, etc. Ardis Barrow does the secretarial work and Marcus Barks dale is general handyman around the place. Jerry Eckart is now a minister and Brenda Thompson a Sunday school te er. Paul Cunningham and James Askren went to Purdue University to major in farming and are now making good m supervising the feeding of pigs.

Jerry Fessel is head scientist at the missile research plant at Charlestown. Ellen Kennedy and Darlene Clunie w in the laboratory of the research plant. Ever so often they hop into Jerry's private missile, zoom through the hemo sphere, and come to an explosive stop back in front of the missile plant. Speaking of missiles, Rita Briscoe, who started as a stewardess for Northwest Airlines, is now top test pilot for The Aircraft Missile Corporation in Washingto D. C., where Ann Nolot has become famous as a radar technician. James Yocum is head statistician and accounta for the same company.

Upon reaching home, I started fixing dinner with the thoughts of the class of '58 still in my mind and was anxi ly awaiting our coming reunion.

CLASS WILL

We, the Senior Class of North Central High School, City of Ramsey, County of Harrison, State of Indiana, being declared of sound mind and memory, do hereby make, publish and declare this to be our last will and testament, hereby revoking any will or wills heretofore made by us.
